GMT investments 10th zvi  
bodie pdf - Financial  
economics is the branch of  
economics characterized by  
a "concentration on  
monetary activities", in  
which "money of one type  
or another is likely to  
appear on both sides of a  
trade". Its concern is thus  
the interrelation of financial  
variables, such as prices,  
interest rates and shares, as  
opposed to those  
concerning the real  
economy. Financial  
economics - Wikipedia -  
Academia.edu is a platform  
for academics to share  
research papers. SILABUS
